Our company operates a state-of-the-art car repair workshop with a total area of 2,000 m², designed to support comprehensive vehicle maintenance and repair operations. The workshop is divided into specialized sections, including:

- **Mechanical Section** – Equipped for engine repairs, overhauls, and general mechanical maintenance.
- **Welding/Metal Fabrication Section** – For structural repairs, chassis reinforcement, and fabrication works.
- **Electrical Section** – Dedicated to vehicle electrical systems, diagnostics, and component replacement.
- **Bodywork Section** – Handling structural alignment, dent removal, and panel repairs.
- **Painting Section** – Featuring professional paint booths for high-quality finishes and corrosion protection.

In addition to our main workshop, we operate two fully equipped mobile workshops (Workshop 1 and Workshop 2) as part of our Emergency Response Plan. These mobile units are strategically deployed to handle urgent breakdowns and maintenance tasks on highways, industrial areas, and remote operational sites.

Technical Workforce:

- 35 skilled technicians specialized in various maintenance disciplines
- 4 professional drivers for transport and emergency support
- 1 supervisor
- 1 general supervisor overseeing daily workshop operations
- 1 maintenance manager ensuring compliance with safety and operational standards

Operational Excellence:

All facilities, vehicles, and equipment are regularly inspected, maintained, and upgraded according to international safety and quality standards. This ensures:

- High reliability and availability of our fleet
- Quick response to emergency breakdowns
- Safe and efficient operations across all project sites

Our robust infrastructure, combined with a highly trained workforce, enables us to provide comprehensive transportation, maintenance, and emergency response services, ensuring continuity of operations under all conditions.

Worker and Driver Accommodation

Our company provides a dedicated accommodation facility for all workers and drivers, designed to ensure a safe, comfortable, and healthy living environment. The accommodation is fully equipped with all necessary amenities to meet daily living requirements, including:

- **Sleeping quarters** with adequate bedding and personal storage for all residents
- **Sanitary facilities** include clean bathrooms, showers, and laundry areas
- **Dining facilities** with provision for hygienic food preparation and meals
- **Recreational areas** to support rest and relaxation
- **Safety and security measures** always ensure a secure living environment

The accommodation is regularly maintained to meet health, safety, and hygiene standards, in compliance with local regulations and best international practices.

This facility ensures that our workforce is well-rested, motivated, and ready to perform their duties efficiently, contributing to the overall success and operational excellence of our projects.
